The keynote speech will be held in French. A simultaneous translation service into Italian and English will be provided.

After a brief state of play of the European response to the crises, with a focus on the financial regulation agenda and the creation of the Banking Union, Michel Barnier will look at the remaining challenges from a financial, economic, social and political perspective, and present his vision for an ambitious Europe in the years to come. From a modern industrial policy to the energy union, the digital continent, a balanced migration policy and a strong diplomacy and defence, he will elaborate on the conditions needed for Europe to be a major player in tomorrow's global world.
