**ASSISTANT PROFESSOR POSITIONS ANNOUNCEMENT**

**Department of Decision Sciences**
**Bocconi University, Milan, Italy**

Università Bocconi, Milan (Italy, www.unibocconi.eu) invites applications for tenure-track positions at the junior faculty level in the Department of Decision Sciences.
Candidates with expertise in the following areas will be given special consideration:
• Machine Learning
• Algorithms
• Mathematical, numerical and statistical investigation of complex phenomena
• Interdisciplinary computationally intensive applications
and related fields.

Knowledge of Italian is neither required nor advantageous. Responsibilities include teaching and, most importantly, productivity in research. Preference will be given to the most qualified candidates independently of their specific field of research. Applicants should have— or be close to completing —a Ph.D. and proof of having established potential in research and teaching.

Contracts will run for up to eight years (with one paid sabbatical year and subject to renewal after the first three years). There is the possibility of promotion to a tenured position by the end of that period. Compensation and teaching load will be competitive with other top European Schools.

Application must be submitted online at [www.unibocconi.eu/jobmarket](www.unibocconi.eu/jobmarket)

Applications must be received by September 15th, 2016.
